

# CARFENTANIL ALERT FOR HAMILTON

## January 2017

Be aware that street drugs in Hamilton may contain a deadly opioid drug - **carfentanil (or carfentanyl)**. It is **100 times stronger than fentanyl** and is hidden in other drugs. **It will cause more overdoses and deaths.**

### What You Can Do:

Always call **911** for an overdose. **You need hospital care to survive.**

Get a naloxone overdose kit and training: **905-546-4276** or  
**1-800-565-8603**

Use smaller amounts of drug and don't inject the whole dose at once.  
Be with someone else when using.
